Run residue results through your PC with a faster, simpler, easier to use system.

The new IDEXX SNAPshot® DSR with SNAPconnect™ software simplifies residue data management.

Touch-type on screen
Input data on screen or plug in a PC keyboard for alphanumeric input and customize reports.

Maximize productivity
Streamlined design fits and goes anywhere. Ease of use makes high throughput effortless.

Get a clear picture
Upgraded vision system and extra large display screen make results easy and quick to read.

Available in multiple languages
