

# The accurate Catalyst SDMA Test you know and trust. Now upgraded.

**Easier to use. Faster results. And simple freezer storage with other routine slides.**

Kidneys are earlier indicators of many aspects of kidney health. By including the new Catalyst\* SDMA Test with every chemistry panel, it's now easier than ever to hear everything kidneys have to say.

Find out more about the Catalyst SDMA Test improvements, watch a short video on how easy it is to run, read FAQs and get staff training at [idexx.co.nz/newSDMA](https://idexx.co.nz/newSDMA).

## What's changed

- + Convenient storage: Now in the freezer, making it easier to grab and go when getting other Catalyst\* slides.
- + Simpler workflow and faster results: No more reagent cups. Now that the reagent has been incorporated into the slide, you can simply add the slide to your chemistry run for faster results.
- + New product number: Go to [provet.co.nz](https://provet.co.nz) to order the new Catalyst SDMA Test.
- + Catalyst\* Total T<sub>4</sub> Test rebate: We are introducing a new Catalyst Total T<sub>4</sub> Test rebate, to be added to the Catalyst SDMA Test rebate when total T<sub>4</sub> is run with SDMA and a Chem 10, Chem 15, or Chem 17 CLIP, or an NSAID 6 panel.

## What's staying the same

- + The industry-leading, reliable accuracy you've come to expect so you can gain deeper insights into kidney function.
- + Ordering convenience: The Catalyst SDMA Test will still be easy to order through Provet.
- + Flexibility to add to any panel in any order.
- + Same quantity, less bulk: You'll still get 12 tests per box, but smaller packaging means easier storage and less waste.
- + Catalyst SDMA Test rebate: Customers will still earn the Catalyst SDMA Test rebate when SDMA is run with a Chem 10, Chem 15, or Chem 17 CLIP, or an NSAID 6 panel.
